

Do you ever participate in volunteer work as a clinician? If yes, where?

1. Yes, at the Rogers County Free Medical Clinic, twice a month. And I serve on the board and as medical director.
2. At this time I do no volunteer
3. I volunteer once a month or so (although did not for the last year as I was out of town but am looking forward to resuming) at a free clinic run and organized at the Rogers County Health Department by one of our OKPRN members. She has been the tireless organizer of this clinic and it is a real service to the patients of Rogers County and surrounding areas. It's a real joy and privilege to work with her and the other docs and nurses who volunteer, and to be of some service in a small way to the patients.
4. Lighthouse Medical Clinic in South OKC
5. Broken Arrow Neighbors free clinic (usually first Monday of each month)
6. Little Flower clinic
7. City Rescue Mission clinic
8. I volunteer my time at an advocacy center for child abuse doing exams. Also doing sports physicals at area schools.
9. I volunteer Enid Community Clinic 8 3 hour shift per year
10. Enid High School 2 3 hour sports exams per year
11. Boy Scout physicals 1 4 hours camp exams twice a year
12. Northern Oklahoma College 3 3 hour shift q year
13. Yes, but not formally. If I talk to support groups, I listen to their stories and provide clinical input. If I get asked questions wherever I am and with whomever, I provide clinical input. I see neighbors and relatives of friends on request. I do not order tests or prescribe medications in these circumstances, but I often make recommendations for tests and medication changes. I always tell them they have to discuss with their PCP.
14. Annual mission trip to Uganda and the annual free clinic at the State Fairgrounds under RAMS.
